

ATMA RAM SANATAN DHARMA COLLEGE (UNIVERSITY OF DELHI)

Equal Opportunity Cell

The College remains committed to fostering an inclusive, accessible, and equitable learning environment in alignment with its broader vision of academic excellence, social responsibility, and student-centric development. In this regard, the Equal Opportunity Cell/Enabling Unit plays a crucial role in ensuring that students with disabilities and diverse learning needs are provided with appropriate academic support, accessible infrastructure, and an enabling environment to thrive.

The Cell is dedicated to promoting inclusivity, equal access, and non-discrimination within the institutional framework. It works towards creating a campus ecosystem where every student feels respected, empowered, and supported, irrespective of physical or sensory challenges. Through continuous efforts, the College has strengthened its commitment to accessibility by enhancing infrastructural facilities and integrating inclusive practices into the teaching-learning environment.

In alignment with IQAC initiatives and institutional priorities, the Cell focuses on promoting awareness, sensitisation, and capacity building among students, faculty, and staff. Emphasis is placed on developing inclusive learning resources, encouraging the use of assistive technologies, and fostering a culture of empathy and mutual support. The Cell also aims to strengthen student engagement through structured support systems and inclusive academic practices.

Looking ahead, the Equal Opportunity Cell envisions further strengthening its initiatives through the expansion of assistive facilities, implementation of technology-enabled accessibility measures, and the introduction of structured mentorship and peer support mechanisms. Through these sustained efforts, the College continues to uphold its commitment to building a compassionate, inclusive, and empowering academic community.
