

Course: BA (H) Economics

Semester: IV

Assignment for Internal Assessment

Teacher Name: Dr. BK Negi

Dear students due to uncertainty regarding reopening of college, we are directed to take assignments and presentation through online mode. In this regard I am giving you one assignment with your project writing which will be of 20 marks (ten marks each project and assignment) because presentation seems not possible keeping in mind the limitation of data or network condition. You need to submit it by 30<sup>th</sup> April 2020. Please strict to the last date. After last date nobody will be allowed to submit and marks will be mark as zero. Since I am taking assignment so there should not be any similarities in write up if I find any similarities in write up all would be punished irrespective of who have done original or copied. This would be the only way of marking in this juncture. In case of project you all were working in groups since inception of classes in January. Now you need to submit your projects with all information such as topic name, student group and their description name roll no etc. and submit with assignment on 30<sup>th</sup> April 2020. After last date both project and assignment will not be accepted.

Assignment question

Do you think there is mis-estimation of GDP growth in India after 2011? Find out the major factors which have contributed the GDP overestimation?

Please be strict to the last date 30/04/2020. After last date assignment will not be accepted and marks will be zero.
