Visit to Neela Hauz Biodiversity Park

Date: 30th September, 2022

No. of Participants: 17

Organized by (Department): Botany and Zoology Department

An educational trip to Neela Hauz Biodiversity Park was organized on September 30, 2022. The students of Zoology Generic Elective: Environment and Public Health and Botany Generic Elective: Environmental Biotechnology participated. The visit was undertaken as a compulsory portion of the curriculum. The students were accompanied by Dr. Kanchan Srivastava and Dr. Anita Singh.

The waste water treatment done in that park is the key feature. They have developed an oxidation pond which biologically treats the sewage water and removes the contaminants of water. Since waste water treatment is one of the main components of the syllabus, the students learnt a lot.

The park is spread over 10 acres of land which includes 6 acres containing a lake, 2 acres of wetlands, and the rest of the two acres contain a dense population of various trees and plants.
