### "Extension of Winter Internship Application Deadline"-Reg.

We are pleased to announce an important update regarding the Winter Internship Program. In response to requests from students and institutions, we have extended the application deadline to November 22, 2024, till 5 PM. This extension allows additional time for all interested candidates to prepare and submit their applications.

The training program, designed for professionals and students, includes a 5-day session on Advanced Drone technology, 3-day session on CanSat and CubeSat, and topics in Astronomy and Space Entrepreneurship

The examination fees are structured as follows, based on family income:

- For families with an annual income of less than ₹10 lakh: The examination fee is ₹350.

- For families with an annual income of more than ₹10 lakh: The examination fee is ₹750.

The training will start on December 7 and continue until January 7, with the possibility of an extension to January 10.

The exam will be held on November 30 at 2 PM, with a second shift on December 1. Both the exam and training will be conducted **online**.

The exam will consist of 12th-standard mathematics and logical reasoning. There will be a total of 35 questions, each carrying two marks. A negative marking of 0.66 will be implemented for each incorrect answer. The total duration of the exam will be 90 minutes.

Please note that the total number of seats available for the Winter Internship Program is 845. We strongly encourage all eligible candidates to take advantage of this opportunity and ensure their applications are submitted by the revised deadline.

#### Lateral Entry:

The internship training program will offer lateral entry for officials, faculty, research scholars, and students interested in technology or various projects. Participants can select the technology they wish to learn and join the ongoing sessions.
